What To Do After A Motor Accident

- Stop your vehicle immediately and get medical assistance for the injured
- Co-operate with the driver (if another car is involved) and exchange the following information:
- Name, address and phone number of owner and driver of vehicle
- Description of vehicle(s), year, model, registration number and color
- Name, address and telephone number of insurance agent
- Call the police

It is very Important to write down the following information

- Time and date of accident
- Details of how the accident happened
- Exact location
- Damage to your vehicle
- Name, address and phone number of any independent witnesses
- Name and I.D. number of the investigating officer
- This information will subsequently reduce the time involved in processing your claim
